

Family Smile Center, LLC
301-663-9484

**POST-OP INTRUCTIONS FOR YOUR TEMPORARY
INLAY**

You now have a temporary inlay in place until the final restoration can be placed. The temporary is flexible and to ensure it stays in place there are a few simple instructions to follow:

- 1) Please don't eat on this side, do all of your chewing on the other side.
- 2) Please don't floss around the temporary as you could dislodge it. You can still floss normally though.
- 3) Avoid all sticky and chewy foods.

If for any reason the temporary should happen to come out, please call the office immediately. If the temp comes out, it leaves the tooth unprotected and vulnerable to further damage. So please don't delay getting this put back in place. If you have any questions please feel free to call the office.
